

Scripting Demo Prototype Coursework Report

Prototype Functionality Description

Description of prototype functionality ...

Tools and Techniques

List of tools and techniques used

Relevant Statistics

Relevant statistics (e.g. lines of code written, plus an assessment of code taken from acknowledged external sources - provide a list giving sources)

Design and Implementation

Brief overview of design and implementation, including key design decisions.

Critical Evaluation

The exercise helped me to visualize the whole process and potential issues previously not visible by me. It increases the awareness on technological limitations, as well as the requisite to unlearn previously known database syntax to really adopt the approach proposed by these new technologies.
